- Front LED light with a built-in reflector
- Front and rear fenders with splash guards
- Tires that resist punctures and have reflective strips
- 26" wheels with aluminium rims
- Shimano dynamo and front and rear rim brakes
- Steel fork with a docking adapter and RFID chip
- Anti-rust chain and chain guard
- Aluminium pedals with front and rear reflectors
- Stable side kickstand
- Shimano wrist twist shifter
- Rear light with a "steady on" function and built-in reflectors

WHY SITYCLETA?

Sitycleta is a name that reflects the uniqueness of the Canary Islands, and that is easily recognizable. It comes from a play on words using "Sity", from the word "City", and "Cleta", from "bicicleta", ("bicycle" in Spanish). The word "City" in English has been modified to emphasize the marked pronunciation of the sound "s" that is typical of locals from the Canary Islands. It includes the Spanish word "sí" ("yes"), an affirmation ever present: yes to optimism, yes to the city, yes to sustainable mobility....

The combination of colours is inspired by the colours of the city of Las Palmas de Gran Canaria: blue as the Canary Islands' flag, of the Atlantic Ocean, of the city surrounded by the sea; the yellow represents the islands, the sun, the sand, the beaches of the city.

ABOUT THE SERVICE

375 smartbikes

35 stations with solar panel and 5 intelligent docking stations

Software with GPS, information about the routes and bike availability

Easy payment method

Less than 400 metres of distance between stations

2 adapted bicycles for people with reduced mobility

HOW DO I REGISTER?

1. Download the Sitycleta app onto your mobile phone or visit the website **www.sitycleta.com**

2. To become a user, you must register and provide a credit/debit card number.

3. You will receive an SMS and... that's it. You're registered.

App de Sitycleta

HOW DOES IT WORK?

Occasional Use: You can choose between different rates depending on the time of day. It's a flexible service in which you only pay for the time you use.

Subscription Plan: If you are going to use the bikes regularly, the most practical and cheapest way is for you to become a service subscriber. As a subscriber, you can enjoy 30-minute bike riding intervals for free, included in the fee you have chosen. But, if you need more time, you can do one of two things: either rest 15 minutes between each use, leaving the bicycle at the docking station and taking another one afterwards, or keep going without a rest. In the second case, the system will charge you €0.50 for each additional 30-minute period. Remember that this is a shared service and you must give other users the chance to have a bike.

FEES

Occasional Use: Sitycleta is paid for in advance in 30-minute intervals. During the ride, if you go over the time allotment, the payment automatically recurs.

Sitycleta for 30 minutes: €1.50

Electric Sitycleta for 30 minutes: €2.50

Subscribers: You can choose different prices depending on your use. The loan system allows you to enjoy the Sitycleta for intervals of 30 minutes without any kind of extra fee in addition to the subscription rate. Between each 30-minute stretch, you must take a 15-minute break to avoid incurring additional fees, and use must be by the same person.

Weekly subscription: €15/week

Monthly subscription: €20/month

Individual yearly subscription: €40/year

Family yearly subscription: Starting at €72/year

30 additional minutes (maximum 2h): €0.50/30minutes.
More than 2h: €0.75/30 minutes.

...SITYCLETA IS CHANGING THE CITY

Sitycleta is here to stay, giving the definitive boost to the bicycle as a modern, intelligent, sustainable and comfortable way of moving. Thanks to Sitycleta, Las Palmas de Gran Canaria is more cosmopolitan, more attractive for tourism, friendly, open and committed to sustainable mobility.

Since its launch, the service has become the way of moving around the city. In the first six months, with an average of 700 uses per day, there already are:

1.316 YEARLY SUBSCRIBERS

40 YEARLY FAMILY SUBSCRIBERS

235 MONTHLY SUBSCRIBERS

188 WEEKLY SUBSCRIBERS

14.145 PEOPLE SUBSCRIBED, OF WHICH 5.995 ARE ACTIVE

LIFE IS BETTER MOVING BY BIKE.

HOW TO USE SITYCLETA

Renting a Sitycleta

To use a Sitycleta, activate the on-board computer that you'll find at the rear of the bike by pressing any key. Go into to the app and type in the bike's identification number, scan the QR code from the rear, or use NFC. The app will immediately provide an authorization code that you must enter on the bike's keypad to unlock it and remove the lock. And, that's it... it's all yours, ready for use.

Parking for a second

If you need to make a stop during your journey, there is no problem. Use the Automatic Lock Function. To do this, push key C and put the lock into the front fork. To resume use, enter the code again and keep going.

Returning the Sitycleta

To return the bike, go to a docking station and put it into one of the docks. Push "OK," place the lock through the front fork, and check to make sure that the light turns green. That's it – the bike has been returned.

#RIDEWITHCARE

- Follow the traffic laws and signals.
- Use the bike lane.
- Keep a 1.5-meter safety distance between yourself and other riders.
- If you're traveling through an area where the speed limit is 30 kph, respect the speed limit.
- Remember to always yield to pedestrians.
- Don't ride and use your mobile phone or headphones.
- Remember to use reflective clothing when it gets dark.
- Remember to never let go of the handlebars, unless you're signaling a turn or another maneuver.
- Don't load the bike with objects that can block your view.
