疫情防控主要做法

Control and Prevent

03/疫情防控主要做法 Control and Prevent

ONE

积极寻找和控制传染源

Actively identify & control
source of infection

TWO

坚决切断传播途径

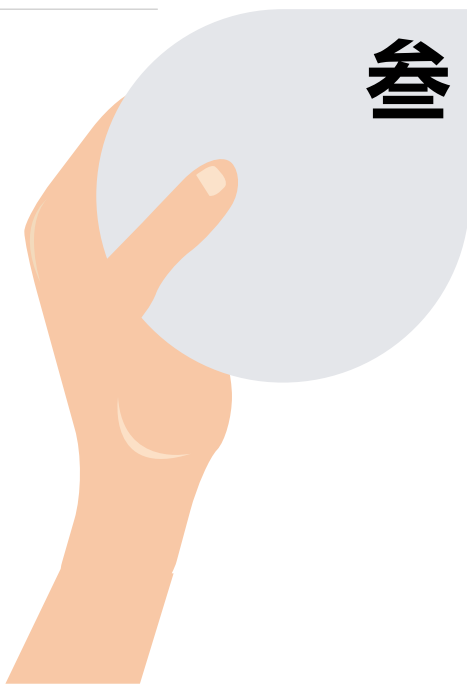

Resolutely cut off means
of transmission

THREE

努力保护易感人群

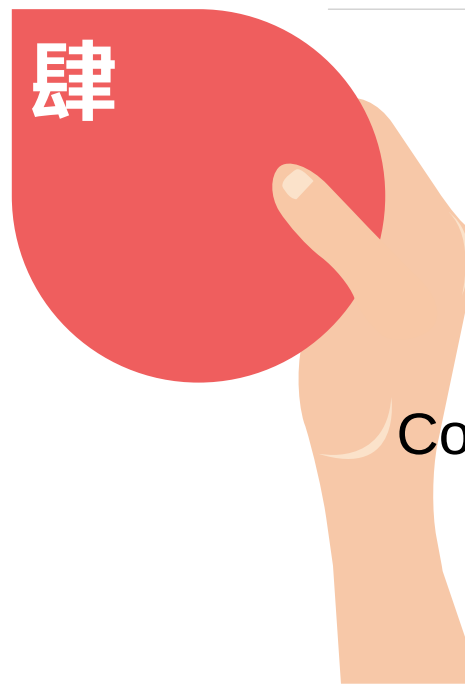

Protect vulnerable
people with all efforts

FOUR

全面加强医疗救治

Comprehensively strengthen
medical treatment

(1)积极寻找和控制传染源 Actively identify & control source of infection

▼ 医务人员对入城的司乘
人员测量体温

▲ 医护人员在汽车站为乘
客体温测量

▼ 柳州市疾控中心开展核酸检测
反馈时间1小时内

▲ 鹿寨县疾控中心开展消杀

(2)坚决切断传播途径 Resolutely cut off means of transmission

▲城中社区卫生服务中心医务人员上门开展新型冠状病毒感染肺炎症状的访视排查工作，为湖北返柳人员测量体温。

Medical staff go door to door to filter any returnees from Hubei province with Covid-19 infection syndromes.

▲家庭医生团队对全市1208个村民委（居委会）的疫区返乡人员实行网格化管理。

Family doctor team visit returnees from affected area.

(2)坚决切断传播途径 Resolutely cut off means of transmission

组织志愿者参加社区疫情防控、复工复产等工作，为柳州坚决打赢疫情防控阻击战注入了强大正能量

Organized volunteers, participating in epidemic prevention and control in the community, help Liuzhou resolutely win over the outbreak.

(3)努力保护易感人群Protect vulnerable people with all efforts

▲向辖区居民宣传个人卫生，指导如何正确佩戴口罩

Medical staff demonstrate how to wear mask properly

社区卫生服务中心家庭医生上门随访
Family doctors in the community pay home visit anytime

▲柳州市人民医院感控科邬佩云科长认真地为即将给新冠肺炎疑似患者做手术的消化内科李运泽主任穿戴防护服

Doctor to perform operation is putting on protective gown.

(4)全面加强医疗救治 Comprehensively strengthen medical treatment

▲ 柳州市人民医院感染性疾病科二病区蒋忠胜主任和重症医学科吕光宇副主任在负压监护病房工作

doctors in ICU

▲ 柳州市人民医院远程会诊，助力基层医院疫情防控

Tele-medical-consulting from Liuzhou People's Hospital to help rural area control the outbreak

▲ 患者康复出院

discharged patient

有序复工复产

Resumption of
Production in Order

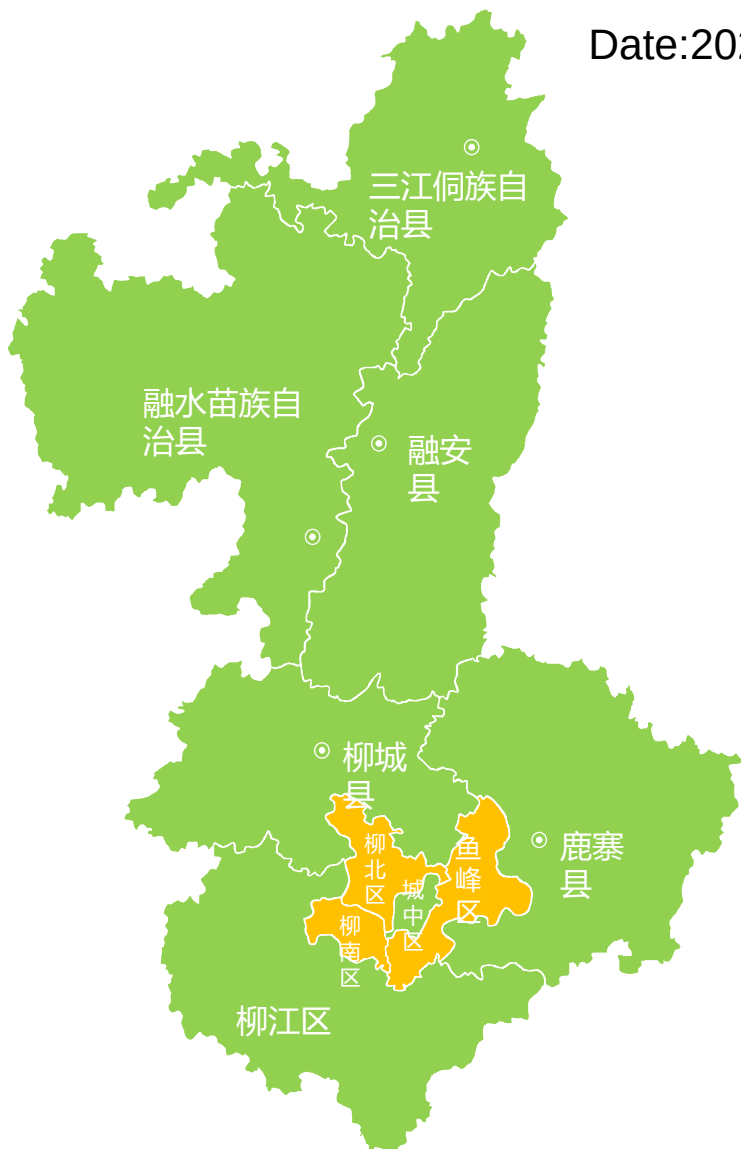

04/有序复工复产 Resumption of Production in Order

04/有序复工复产 Resumption of Production in Order

Date:2020-02-19

低风险地区：无确诊病例，或连续14天无新增确诊病例。
实施“外防输入”策略，严阵以待。

Low Risk Area: no new case for 14 consecutive days

中风险地区：14天内有新增确诊病例，累计确诊病例不超过50例；或累计确诊病例超过50例，14天内未发生聚集性疫情。

实施“外防输入、内防扩散”策略。

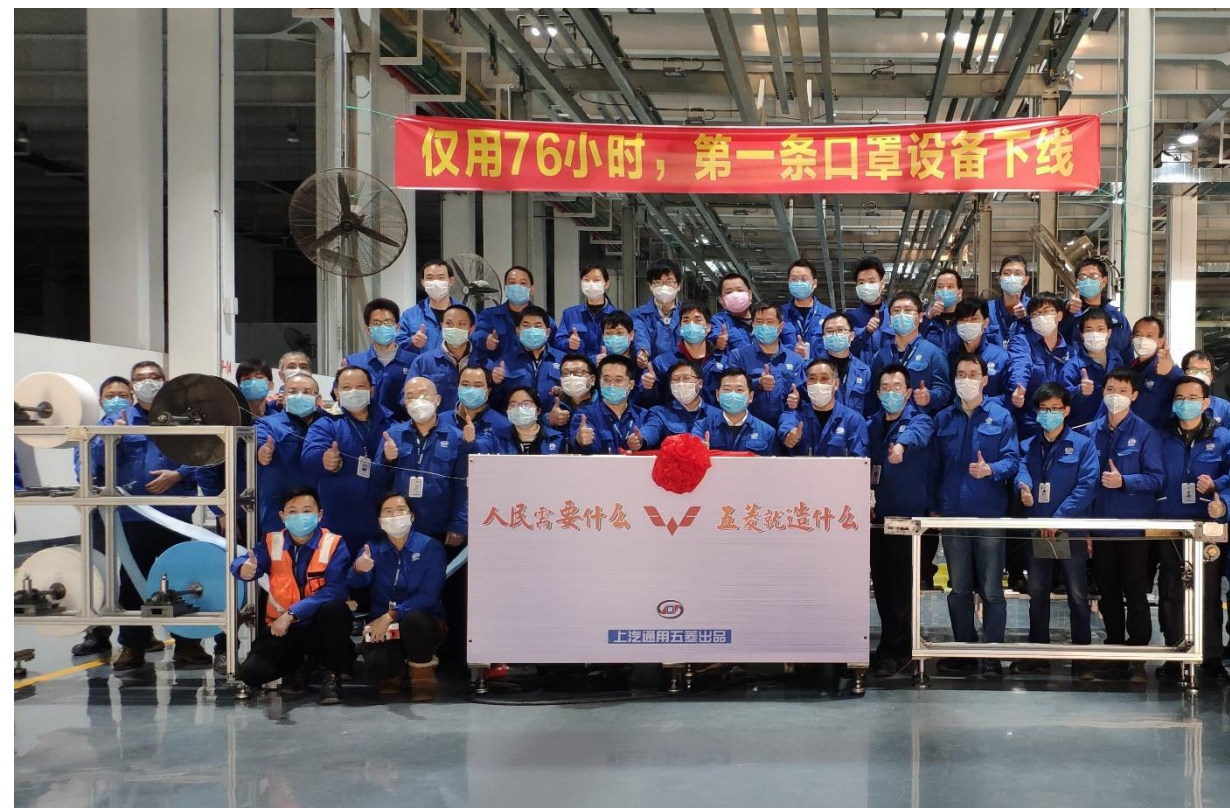

Mid Risk Area: new cases within 14 days

高风险地区：累计确诊病例超过50例，14天内有聚集性发生。

实施“内防扩散、外防输入、严格管控”策略。

High Risk Area: 50+ confirmed cases

04/有序复工复产 Resumption of Production in Order

▲上汽通用五菱汽车股份有限公司联合供应商通过改建生产线的方式转产口罩，成为作为疫情期间首个转产口罩的车企。76小时后，第一条口罩设备下线！

SAIC-GM-WULING Automobile Co. Ltd, together with its suppliers, transforming the production line into surgical masking assembly line, is the first car company to do so during the outbreak. It took **ONLY 76 hours** for the first mask assembly line to kick off!

Let's unite as one to fight the epidemic!

让我们团结一心，对抗疫情！

Thanks!
